PROFESSIONAL SUMMARY

Operations and technology leader with 18+ years of progressive experience driving process excellence, team performance, and digital transformation across manufacturing, BPO, and retail environments. Recognized for building automated reporting systems, leading Six Sigma-driven improvement projects, and developing cross-functional teams in high-velocity settings. Full Stack Developer (React, Node.js, MongoDB) — trained at Uplift Code Camp and completed a Computer Programming diploma at Sheridan College — combining deep operational expertise with hands-on technical skills to bridge the gap between business needs and scalable technology solutions.

CORE COMPETENCIES

Operations Management | Process Improvement (Six Sigma Green Belt) | KPI & Performance Management | Data Visualization (Power BI) | Change Management | Team Leadership & Coaching | Quality Assurance | Full Stack Development (React / Node.js / MongoDB) | Agile / Jira | Root Cause Analysis | Technical Documentation | Cross-Functional Collaboration | Artificial Intelligence | Project Management

CERTIFICATIONS & TECHNOLOGIES

Certifications: Six Sigma Green Belt | Full Stack Developer (Uplift Code Camp) | Forklift Operator | PADI Open Water Diver

Technologies: JavaScript · TypeScript · React · Node.js · Express · MongoDB · Mongoose · HTML5 · Git/GitHub · Postman · Netlify · Render · C++ · C# · Python · SQL

Business Tools: Microsoft Excel (Advanced) · Power BI · PowerApps · SharePoint · Jira / ClickUp · Confluence · Figma

Languages: English (Fluent) · Filipino / Tagalog (Native)

PROFESSIONAL EXPERIENCE

Loblaw Companies Limited

Nov 2025 – Present

HMR Clerk

Mississauga, ON

- Maintain food safety, product quality, and customer service standards within a high-volume hot meals and ready-to-eat department while continuing Full Stack development studies at Sheridan College.

Sheridan College

May 2025 – Aug 2026

Student Ambassador

Oakville, ON

- Represent Sheridan College to 100+ prospective students and families per month through campus tours, open days, and college fairs, consistently earning 100% satisfaction ratings.
- Deliver 60+ minute campus tours covering academic programs, facilities, and student services while fielding complex admissions inquiries on the spot.
- Collaborate with admissions, faculty, and staff to ensure prospective students receive accurate, current program information in support of enrolment conversion goals.

Tesla, Inc.

Aug 2020 – Jun 2023

Relocated to Canada following Tesla tenure (Jun 2023 – Feb 2024); transitioned into full stack development training.

Supervisor – Process Engineering

Fremont, CA | Mar 2023 – Jun 2023

- Directed daily cross-functional collaboration with 10+ engineers, quality leads, and production supervisors to resolve manufacturing defects, improving powertrain production yields by 12%.
- Coached and performance-managed 24 process technicians across safety, quality, schedule adherence, and KPI targets, reducing defect escalation rate by 5% through real-time defect trending tools.
- Implemented 8+ new manufacturing processes end-to-end, including technical documentation, onboarding programs, and work instruction development for 2 process leads.
- Designed and deployed 5 automated operational dashboards using Excel, SharePoint, and PowerApps, delivering real-time production visibility to 50+ stakeholders and cutting reporting lag by ~40%.
- Standardized manufacturing documentation (MIs and SOPs), ensuring consistency across 3 production shifts and achieving full compliance readiness.

Team Lead – Process Engineering

Fremont, CA | May 2022 – Mar 2023

- Led and evaluated 7+ process technicians, maintaining 98% adherence to production KPIs, safety standards, and quality benchmarks.
- Designed and deployed 3 automated operational dashboards using Excel, SharePoint, and PowerApps, delivering real-time production visibility to 50+ stakeholders and cutting reporting lag by ~40%.
- Developed onboarding training for new technicians on manufacturing protocols and safety procedures, cutting average ramp-up time in half.
- Monitored daily yields, defect rates, and GA reports across 80+ units, using data-driven insights to prioritize continuous improvement initiatives.

Process Technician – Process Engineering

Fremont, CA | May 2021 – May 2022

- Diagnosed and resolved 100+ complex powertrain manufacturing defects per period, maintaining production yields at 95% daily.
- Implemented 12+ new manufacturing processes and trained operators, eliminating scheduled rework by 4% and improving first-time fix rate by 55%.
- Created and updated Manufacturing Instructions (MIs) to standardize procedures across 3 production shifts, reducing variability and supporting quality audits.

Production Associate

Fremont, CA | Aug 2020 – May 2021

- Assembled 100+ powertrain units daily at 100% quality standards, performing detailed inspections on 200+ critical components weekly with 99.5% specification compliance.
- Delivered 2 process improvement initiatives that reduced manufacturing defects by 1.4%, demonstrating proactive problem-solving beyond standard associate scope.
- Operated 20+ Tesla vehicles weekly for logistics and pre-delivery quality verification, ensuring 100% operational readiness before customer handoff.

DigitalStorm

Mar 2020 – Aug 2020

Joined following relocation to the United States; bridging role ahead of Tesla opportunity.

Quality Analyst

Gilroy, CA

- Performed end-to-end quality control on 20+ custom PC builds daily, including BIOS configuration, Windows OS installation, driver compatibility testing, and aesthetics review, maintaining 98% quality standards.
- Verified BIOS settings and hardware driver configurations for 30+ builds daily, achieving 95% customer satisfaction and zero specification deviations.

Diamond Dental of Salinas

Nov 2019 – Mar 2020

Administrative role taken during initial US relocation period while pursuing manufacturing opportunities.

Claims Clerk

Salinas, CA

- Reviewed and audited 400+ insurance claims monthly via Dentrix with 99% accuracy, reducing processing errors and claim rejections.
- Coordinated with 15+ insurance providers to verify claim statuses and resolve discrepancies, achieving 95% first-contact resolution and cutting processing time by 52%.

SYKES Asia, Inc.

Jun 2004 – Jul 2019

Process Engineer

Makati, Philippines | Mar 2016 – Jul 2019

- Executed 40+ process audits aligned with SYKES Standards of Excellence, ensuring 100% compliance and readiness for SOX and ISO audits across Asia Pacific operations.
- Applied Six Sigma DMAIC methodology to identify process gaps and drive measurable quality improvements across the APAC region.
- Built data dashboards and automated reporting systems using Power BI, PowerApps, Excel, and SharePoint, reducing stakeholder decision-making time by 30%.

HR Manager – Talent Acquisition

Makati, Philippines | Aug 2014 – Mar 2016

- Designed and executed workforce planning initiatives with 20+ academic institutions, growing the talent pipeline by 40% and reducing time-to-hire by 25%.
- Implemented recruitment technology improvements to enhance candidate experience and accelerate hiring cycle times.

Quality Management Specialist

Makati, Philippines | Jan 2008 – Aug 2014

- Applied Six Sigma principles and root cause analysis to drive quality improvements and ensure operational stability across customer service accounts.
- Built and maintained advanced Excel reporting templates, providing training to account officers and support staff, reducing manual analysis time by 40%.

Technology Support Specialist

Makati, Philippines | Jul 2007 – Jan 2008

- Provided technical support for 1,000+ users, designing 20+ Excel automation tools that reduced manual processing time by 40% across multiple business units.

Quality Assurance Analyst / Customer Service Representative

Philippines | Jun 2004 – Jul 2007

- Monitored 550+ transactions monthly and coached 90+ team members across 4 performance improvement initiatives, improving quality metrics by 18%.

- Maintained 94% CSAT and 98% QA rating as a CSR handling inbound technical inquiries across phone, email, and chat.

EDUCATION

Sheridan College <i>Diploma – Computer Programming Mississauga, ON</i>	Graduated Sept 2026
Uplift Code Camp <i>Certificate – Full Stack Web Development Remote</i>	Feb 2024 – Aug 2024
Philippine School of Business Administration <i>BSc Business Administration – Business Management Quezon City, Philippines</i>	Graduated Mar 2004
